

REMARKS

Claims 1-3 are pending and allowed in this application. By this Amendment, a Substitute Specification is provided. The Substitute Specification contains no new matter and therefore is in compliance with 37 C.F.R. §1.125(b). The Substitute Specification also complies with 37 C.F.R. §1.125(c) in that it is submitted with markings showing all changes relative to the immediate prior version of the specification on record, i.e., the amendments to the specification included with the November 3, 2004 Amendment indicated as being entered according to January 24, 2005 Office Action. No subsequent amendments to the specification were entered (See Paper No. 03232005 indicating that only the amendments to the claims are entered).

This Amendment does not affect the scope of any claim, nor does it require substantial work on the part of the Patent Office. Accordingly, Applicant respectfully requests entry of this Amendment.

Should the Examiner have any questions in this matter, the Examiner is invited to contact Applicant's undersigned representative at the telephone number listed below.

Respectfully submitted,
